The Ninth International Symposium on Physics of Fluids (ISPF9)

12-15 June, 2024, Datong (大同), China

From its origins as a tool primarily for use in aerospace engineering, mechanical engineering, civil engineering and chemical engineering, the application of fluid mechanics and thermodynamics has spread to a wide range of other fields, such as micro-electromechanical systems (MEMS), bio-engineering, nano-technology, and so on. Many advances have been made in the computational and experimental fluid dynamics such as on the turbulence modeling, flow stability, flow visualization and measurement, development of efficient numerical methods for CFD, micro- and nano-flow study, bio-fluidics, moving boundary problem, unsteady flow study, lattice Boltzmann method and its application, meshless method, adaptive approach, immersed boundary method, fluid-structure interaction and energy conversion system. The theme of this conference is to highlight the current advances and future research and development in physics of fluids with primary focus on the connection between fundamental research and engineering applications. The conference aims to assess the current status and to identify the future priority and directions in research and applications of computational and experimental fluid dynamics.

The conference will provide an ideal platform and excellent opportunity for researchers and experts in fluid mechanics and thermodynamics to exchange their research ideas and practical experiences.

Scopes

- Aerodynamics
- Flow Stability
- Turbulent Flows
- Unsteady Flows
- Non-Newtonian flows
- Multiphase and Multi-component Flows
- Flows with Moving Boundaries
- Micro and Nano-Flows
- Biological Flows
- Flow Control
- Fluid-Structure Interaction
- Wind Engineering
- Industrial Applications
- High Performance Computing
- Thermodynamics
- Heat and Mass Transfer
- Energy Conversion Systems
- Flow Visualization and Measurement
- Lattice Boltzmann Method
- Numerical Techniques for Flow Problems
- Adaptive Mesh Refinement
- Meshless Methods

Organizing Committee

Chair: Lee Cunbiao	Peking University, China
Co-Chair: Shu Chang	National University of Singapore, Singapore
Zhao Ning	Nanjing University of Aeronautics and Astronautics, China
Wang Zhihua	Taiyuan University of Technology, China
General Secretary: Cai Qingdong	Peking University, China
Secretary: Ma Guozhen	Taiyuan University of Technology, China
Niu Wenxuan	Peking University, China
Bai Yuqing	Peking University, China
Members:	
Xiao Zuoli	Peking University, China
Yang Yantao	Peking University, China
Chen Zhen	Peking University, China
Zhu Yiding	Peking University, China
Xia Zhenhua	Zhejiang University, China
Wu Jie	Nanjing University of Aeronautics and Astronautics, China
Tian Haiping	Taiyuan University of Technology, China

Ding Junfei	Taiyuan University of Technology, China

International Advisory Committee

Alan Jeffrey Giacomin	Queen's University, Canada
Chang Keh Chin	National Cheng Kung University, Taiwan
Chen Shiyi	Eastern Institute of Technology, Ningbo, China
Chew Yong Tian	National University of Singapore, Singapore
Dou Huashu	Zhejiang Sci-Tech University, China
Du Hejun	Nanyang Technological University, Singapore
Fan Zhao Lin	High Speed Aerodynamic Institute, CARDC, Mian Yang, China
Fu Song	Tsinghua University, China
Hu Hui	Iowa State University, USA
Khoo Boo Cheong	National University of Singapore, Singapore
Lee Heow Pueh	National University of Singapore, Singapore
Leu Tzong-Shyngn	National Cheng Kung University, Taiwan
Lin Chao-An	National Tsing Hua University, Taiwan
Liu Tiegang	Beihang University, China
Lu Xi Yun	University of Science and Technology of China, China
Meng Qingguo	National Science Foundation of China, China
Ng Kim Choon	King Abdullah University of Science and Technology, Saudi Arabia
Nhan Phan-Thien	National University of Singapore, Singapore
New Tze How Daniel	Nanyang Technological University, Singapore
Qian Ling	Manchester Metropolitan University, UK
Qin Ning	University of Sheffield, UK
Remi Abgrall	University of Zurich, Switzerland
She Zhensu	Peking University, China
Sun Bohua	Chinese Academy of Sciences, China
Sun Mao	Beihang University, China
Takaji Inamuro	Kyoto University, Japan
Tang Tao	United International College (UIC), Beijing Normal University-Hong Kong Baptist University, China
Tian Baolin	Beihang University, China
Wang Zhijian	University of Kansas, USA
Wen Chih-Yung	The Hong Kong Polytechnic University, Hong Kong
Xiao Feng	Tokyo Institute of Technology, Japan
Xu Kun	The Hong Kong University of Science & Technology, Hong Kong
Yang Ruey-Jen	National Cheng Kung University, Taiwan
Yang Wenming	National University of Singapore, Singapore
Yao Yufeng	University of the West of England, UK
Zhang Huangwei	National University of Singapore, Singapore
Zhang Yonghao	Institute of Mechanics, China
Zhao Tianshou	The Hong Kong University of Science & Technology, Hong Kong

Deadlines

Submission	
Abstract due	30 April 2024
Notification on acceptance of abstracts	15 May 2024
Registration	
Registration from	15 May 2024

For more information, please contact：

Prof. Q. D. Cai
College of Engineering
Peking University, Beijing 100871, China
e-mail: caiqd@pku.edu.cn
Tel: (86-10) 62757942

Prof. C. B. Lee
College of Engineering
Peking University, Beijing 100871, China
e-mail: cblee@mech.pku.edu.cn
Tel: (86-10) 62755098

Prof. C. Shu
Department of Mechanical Engineering
National University of Singapore, Singapore 117576
e-mail: mpeshuc@nus.edu.sg
Tel. (65) 65166476

Prof. N. Zhao
College of Aerospace Engineering
Nanjing University of Aeronautics and Astronautics, China
e-mail: zhaoam@nuaa.edu.cn
Tel. (86-25) 84891585

Prof.Z. H. Wang
College of Mechanical and Vehicle Engineering
Taiyuan University of Technology
Taiyuan 030024, China
